11. Importance of open Gym.

Benefits of exercise :

Whatever your age, there's strong scientific evidence that being physically active can help you lead a healthier and happier life.

Exercise can reduce your risk of major illnesses, such as coronary heart disease, stroke, type 2 diabetes and cancer, and lower your risk of early death by up to 30%. While exercising itself has several benefits for heart, there have been studies that say exercising in open can help control blood pressure and optimised heart rate. Outdoor gyms also help provide relief from stress which is also a risk factor for heart disease.

Dr. Babasaheb Ambedkar Mahavidyalaya, Amravati provides open gym to college students and outsider resident peoples without charging any fees. Everyone regularly doing exercise in open gym.
