Speaker : Anita Sahu, Leading Entrepreneur of Amravati.

Date : 08/03/2023

Venue : Seminar Room

Brief Report : Ms Jyoti Sahu, leading Entrepreneur in Amravati expressed her views and ideas on women entrepreneurs role in modern society. She opined that, women contribute half portion of the population, and we cannot just sit idle if we are not into Government or private jobs. She said that women entrepreneurs play a crucial role in modern society by driving innovation, creating jobs, and contributing to economic growth. Their diverse perspectives often lead to unique business solutions, fostering a more inclusive and dynamic business landscape. Empowering women entrepreneurs can help in national growth and so this can be done through, supporting initiatives, mentorship programs and equitable access to resources. This can certainly contribute to their own success and they can in return contribute significantly in nation building.

- **Course objectives :-** There is a worldwide shift from conventional educational system to competence based qualification system. With a view to make the skills acquired by the learners acceptable nationally, the curricula and system of certification should align with the National Occupational Standards. In order to facilitate offering of nationally standardized skill related programmes, the Government of India has notified the National Skills Qualifications Framework (NSQF) on 27th December 2013. It is a nationally integrated education and competency-based skill framework which provides for multiple pathways, both within vocational education and between general and vocational education, to link one level of learning to another higher level and enables learners to progress to higher levels from any starting point in the education and / or skill system. The main objectives of the scheme are as follows-

- (1) To make higher education relevant to the learner and the community;
- (2) To integrate relevant skills into the higher education system;
- (3) To provide skill based education to students currently pursuing higher education but actually interested in entering the workforce at the earliest opportunity;
- (4) To provide employable and certifiable skills based on National Occupational Standards (NOSs) with necessary general education to Senior Secondary School pass-outs, with general education and / or vocational education background.
- (5) To provide for up-gradation and certification of traditional / acquired skills of the learners irrespective of their age;
- (6) To provide opportunities for community-based life-long learning by offering courses of general interest to the community for personal development and interest;
